'Warm Homes, Healthy People' Project

Suffolk's Warm Homes Healthy People is a project designed to help vulnerable people and families make their homes cheaper to heat.

The project can provide the following for eligible residents in Suffolk:

- Grants for First Time Central Heating.
- Boiler or heater stopped working? Warm Homes Healthy People can lend you electric heaters and point you in the direction of any grant funding available such as assistance in applying for a local authority renovation or home assistance grant.
- Do you own or privately rent your property? Warm Homes Healthy People can arrange for an independent surveyor to visit your home and discuss energy efficiency improvements that could make a real difference to your heating bills.
- The project can also access grants to help pay for insulation and basic draught proofing

Call Warm Homes Healthy People on 03456 037 686 or email whhp@eastsoffolk.gov.uk if you've a question.

Independent East Online Event | Feedback

Last week we shared about our online event bringing together residents from the five Independent East housing associations to test the potential of and design a 'service sharpener' - a new way to suggest and drive improvements to local homes and services. A big thank you to everyone who took part in the event and the housing associations involved will now review the feedback received and we'll share a little more on our findings in the near future.
